Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3-10,12-16 and 27 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Franchere et al. (USP 5,285,907).

Franchere et al. teach a sample holder forming a strip of modular units(10). The panels of the units are attached by buttons(20,30) and holes(22,34). Figure 2 illustrates all sides have the same arrangement of buttons and holes and has been read on the claimed first and second engagement pieces.
